

Tools for scanning: Teacher practice reflection tool

Once you have a good understanding of what it is you want to achieve in an area of your teaching practice, you can use this table to create a checklist. You can use this checklist to reflect on how effective your teaching practice is in your chosen focus area.

Area of teaching practice:	
What do you identify as good practice in relation to your focus area?	Evidence or examples from your practice
Example: <i>Explaining to children what I am going to do before I do it.</i>	
<i>Commentating or narrating about what is happening</i>
